PRO MEDALIST

The new concept of what tomorrow's truly fine bow should be... engineered with a new dimension of proven performance and accuracy! New sculptured and faceted styling combines functional beauty with new practical design features to make it America's most luxurious bow! Carefully crafted of rare, exotic hardwoods and brought to jewel-like perfection by custom, hand-rubbed finishing. The Pro Medalist Bow is the choice of champions everywhere—and it is yours for exciting shooting today!

NEW MICRO-REST

Found only on the Pro Medalist Bow—the new patent-pending "Micro-Rest" is a precision made, adjustable arrow rest that lets you dial the infinite degree of center shot best suited to your individual shooting technique. The Micro-Rest feature is another trend-setting first—exclusive on the Hoyt Pro Medalist Bows!

Hoyt patented Dyna-Poise limbs and Pistol Grip with the famous thumb rest (Pat. No. 2,995,130) is incorporated in the new bow. Dyna-Poise (dynamically balanced) limbs insure synchronized limb action and true trajectory flight of the arrow. The new Pistol Grip with thumb rest feature literally "molds" your hand into position for consistent top performance.

STABILIZERS

Only the Pro Medalist offers true integrally designed torque stabilization embodying the sound principles of applied engineering. Torque stabilizers substantially increase the mass moment of inertia about the various axes of rotation of bow and bow arm and contribute to an amazing gain in fully controlled shooting accuracy. Strategic positioning of the stabilizers provide perfect static balance to the bow and prevents lower limb "kick-out" when shot... another plus for more accurate shooting!

The detachable stabilizers screw into position easily in seconds. Available in 3 pedestal lengths (2", 3½", 5") and 3 weight diameters (1", 1½", 1¾"). This flexible arrangement permits versatile selection of a combination just right for you. Unless specified, standard set furnished is 2" pedestals with 1½" weight diameters. See your Dealer about a "Try-out" kit. Extra Stabilizer Sets; Pedestals, pair \$6.50 (d), Weights, pair \$2.75 (d).

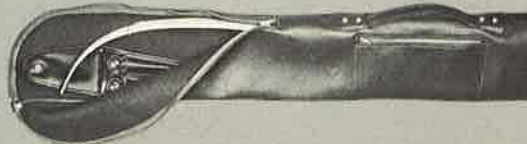

PRO MEDALIST BOW with custom case

\$140

62", 66", 70" Lengths in
weights to 55 lbs. at 28"

79⁹⁵

PRO HUNTER

A bowhunter's hunting bow...

Power! Accuracy! Dependability!... the attributes of this fine weapon are the combined results of field experiences of many successful bowhunters. The optimum length of 58"—not too short for excessive finger pinch, nor too long for tight spots. Fiber glass tensioning member on the back is continuous through the handle for maximum ruggedness. Engineered for perfect cast with heavy arrows, smooth, non-stacking draw and soft recoil action. Full thumb rest pistol grip.

Length: 58", Weights to 70 lbs. at 28"
Bracing Height: 7" to 8" Glass: Black

Pro Hunter

Glass Color: Yellow with Black

Xpert

42⁹⁵

NEW HOYT KLICKER

One of the greatest shooting aids ever devised! Especially suited to curing freezing habits. Improves technique through better control development, increased concentration, and positive aiming. Try the Klicker to regain self-confidence once again in your shooting. Full instructions included. Self-mounting, requires no screws.

12 on Display Card.....each, 1.25

DRAW-CHEK

Refines technique — insures constant draw, increases control, produces deliberate aiming. Use as a permanent aid in your shooting. Rubber finger is non-interfering. Self-mounting, no screws. Instructions included.

12 on Display Card.....each, .50

PRO-TECTO TIP

Protects bow tip, holds string in place. Lightweight plastic with molded contour for secure grip. 2 sizes, standard or large.

12 on Display Card.....each, .50

MAGNUM POINT*

New small game point by Hoyt — improved for greater shocking power, non-skid performance, conic point insures penetration. ⅝" flat face creates maximum shock. Case-hardened for extra strength. Plated against rusting. 5° taper hole, fits 5/16" or 11/32" shafts; wt. 125 grs. *Pat. No. 2,905,470.

3 doz. on Display Card. Six in pkg., 1.80

NEW HOYT PRO FLEX-REST*

Perfect design increases accuracy through positive arrow clearance... prevents arrow fall-off from rest! New, exclusive features include:

PRESSURE PLATE — for controlled spine action and positive clearance for plastic vanes or feathers. Cushioned action serves as a shock absorber that prevents arrow bounce.

MAGIC RETAINING FINGER — prevents arrow from falling off rest... ideal for windy weather, bowhunting, beginners — absolutely non-interfering!

FLEXIBLE SHELF — permits interference-free escapement of arrow due to the spring-like action of shelf which moves out of the way as arrow passes.

These three features achieve design completeness in all the requisites of the ultimate arrow rest. The new Pro Flex-Rest has incomparable versatility and functional qualities that make it ideal for target shooting, bowhunting and for beginners or experts shooting plastic vanes or feathers. Unaffected by moisture. Has self-adhesive backing for easy mounting. State R. or L. hand. *Patent pending.

12 in Display Box.....each, 1.00

STANDARD FLEX-REST

Flexible shelf rest without pressure plate or retaining finger features. 12 in Display Box.....each, .50

NEW HOYT PRO-TAB

New, modern shooting tab featuring a specially designed, highly functional friction pull finger loop that automatically provides instant adjustment for comfortable and secure fit. The new Pro-Tab is equally suited to tournament shooting or bowhunting because of its adjustability for use over glove in cold weather shooting. Requires no break-in, perfectly shaped for smooth release. Sizes S-M-L; R. or L. hand.

T-100 Pro-Tab, finest cordovan, suede leather backing.....each, 1.25

T-102 Pro-Tab, sheared calf hair, suede leather backing.....each, 1.25

T-104 Pro-Tab, one-piece special tanned heavy cowhide. Ideal for schools and ranges

T-200 Elasti-Tab, cordovan with cushion comfort felt backing. Comfortable elastic finger loop. Sizes S-M-L; R. or L. hand.....each, 1.00

HOYT Precision LINE-O-SITE

FOR TARGET • HUNTING • RANGES

The Line-O-Site has anodized slide bar with self-mounting adhesive peel strip for secure attachment without the use of screws, tape, or messy cement. Ideally suited to indoor range use, or wherever fast and easy installation is desired. Adhesive back permits permanent, or temporary mounting and does not harm the finish when removed.

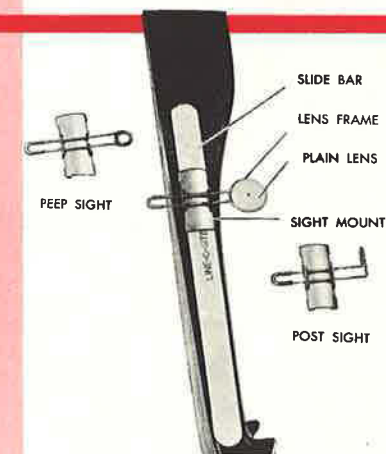

MODELS

Complete with sight aperture, sight mount, and slide bar.

LS-1	Prism Lens	3.25
LS-2	Plain Lens	2.75
LS-3	Post Sight	1.95
LS-4	Peep Sight	1.95

REPLACEMENT PARTS

AP-1	Prism Lens, mounted in lens frame (specify 2°, 4°, 8°, 12°).....	2.00
AP-2	Plain Lens, mounted in lens frame.....	1.50
AP-3	Post Sight50
AP-4	Peep Sight50
LP-11	Friction Sight Mount50
LP-12	Slide Bar	1.00
LP-13	Tube Cover	2 for .05

Deflection Table for Prism Selection
Table gives distance a prism lens will move the sight (deflect target image) as compared to plain lens. Example: If non-prismatic aperture is just 1/16" from side of bow, the use of a 2° prism (rotated to horizontal projection) would place the sight ⅜" from side of bow, etc.

PRISM	DEFLECTION
2°	5/16"
4°	11/16"
8°	1 3/8"
12°	2 1/8"
24°	4 1/4"

BOW ACCESSORIES

BOW CASES

ARROWS

by HOYT

Arrows by HOYT are your assurance of quality. Built of the finest materials available on the most modern machines, arrows by HOYT receive infinite attention to every detail to make them better. Easton aluminum shafting in both 24SRT-X and XX75 is stocked in 22 diameters and wall thicknesses. The new Laminex Micro-Flites, the best in fiberglass arrow shafts, are used exclusively. Only the most select and highest quality Port Orford Cedar is used in the HOYT wooden arrow line. All grades of arrows are helical fletched (insuring accurate, non-planning flight) with selected turkey pointers on special, Patented fletching machines of our own design. With final attention being given to the arrow's glossy finish and attractive crestring, an over-all quality of superior performance is built into each arrow making the HOYT arrow the finest choice an archer can buy.

One of a battery of fletching tables where both stock and custom arrow fletchings are assembled on special, Hoyt designed, Tri-Heli-Fletchers.

TARGET AND FIELD POINTS

801 -- TARGET PILE -- Parallel hole, sizes O.D.: 1/4", 9/32", 5/16", 11/32", 3/8" \$4.50c \$.60 dz.

802 -- STANDARD FIELD -- 5° taper hole, sizes I.D.: 9/32" 100 gr.; 5/16" 100 gr.; 11/32" 125 gr. \$6.75 c \$.90 dz.

803 -- STANDARD BLUNT -- 5° taper hole, sizes I.D.: 5/16" 100 gr.; 11/32" 125 gr. \$6.75 c \$.90 dz.

804 -- NEW HOYT * MAGNUM SMALL GAME POINT -- Improved for greater shocking power and non-skid performance. Conic point insures puncture action, 5/8" flat face creates maximum shock. Case hardened for greater strength and plated against rusting. 5° taper hole, fits both 5/16" or 11/32" shafts: wt. 125 grs.

Six Pak (3 doz. on display card) \$1.80 pkg. *Pat. No. 2,905,470'

805 -- COMBO FIELD -- Long nose, combination parallel and 5° taper hole, sizes I.D.: 5/16" 90 gr.; 11/32" 125 gr. \$6.75c \$.90 dz.

806 -- ZWICKEY FIELD -- 5° taper hole, sizes I.D.: 5/16" 110 gr.; 11/32" 125 gr. \$1.50 dz. (c)

807 -- JUDO BLUNT -- The finest of roving points. Practically unlosable. 5° taper hole, sizes I.D.: 5/16" 120 gr.; 11/32" 135 gr. \$1.10 ea.

808 -- BRASS BLUNT -- Parallel hole, thin wall, flared face. 11/32" 75 gr. \$7.50c \$1.00 dz.

809 -- TARGET POINT -- 5° taper hole, sizes I.D.: 9/32" 55 grs.; 5/16" 70 grs.; 11/32" 100 grs. \$7.50 c \$1.00 dz.

810 -- H.T.M. RUBBER BLUNT -- Parallel hole, I.D. 11/32" 125 gr. \$2.20 dz. 810A -- 5/16" 65 gr. \$2.00 dz.

811 -- HIT-N-HOLD -- Pheasant and bird point \$1.50 ea.

812 -- SNARO -- 6" dia. Bird Point \$2.00 ea.

BROADHEAD POINTS

820 -- ARROW MATE -- 2 edge, 5° taper hole, nylon ferrule 11/32" 110 gr. \$3.75 dz.

820A -- ARROW MATE -- 4 edge, otherwise: as above \$4.50 dz.

820B -- ARROW MATE -- 3 edge, otherwise as above \$4.95 dz.

821 -- BODKIN -- 3 blade, 5° taper hole. Type "A" 11/32" 125 gr.; "B" 11/32" 110 gr.; "C" 5/16" 90 gr. \$3.95 dz.

821A -- BODKIN -- As above but serrated edge \$4.50 dz.

822 -- STANDARD -- 2 edge, 5° taper hole, reinforced blade tip, precision ground. Sizes: I.D.: 5/16", 11/32" \$3.75 dz.

823 -- BLACK DIAMOND -- 2 edge, 5° taper hole. 5/16" 110 gr.; 11/32" 125 gr. \$5.95 dz. (c)

823A -- BLACK DIAMOND -- 4 edge, otherwise as above \$6.95 dz. (c)

824 -- BLACK DIAMOND DELTA -- 4 edge, 5° taper hole, 11/32" 125 gr. \$7.55 dz. (c)

825 -- BEAR RAZORHEAD -- 4 edge with razor insert, 5° taper hole. Fits 5/16" or 11/32" 125 gr. \$5.45 dz.

825A -- BEAR RAZORHEAD -- As above less razor insert \$4.50 dz.

825B -- AUXILIARY RAZOR INSERTS \$1.25 dz.

LACQUER UNDER COAT

Ideal for metal and glass arrows to insure strong adhesion of fletching and cresting to shaft. 1 qt. \$3.25; 1 pt. \$2.00; ½ pt. \$1.25; ¼ pt. \$.75.

HOYT IS AUTHORIZED DISTRIBUTORS FOR EASTON AND MICRO-FLITE

EASTON ALUMINUM TUBING XX75® and 24SRT-X®

Famous the world over as the finest aluminum arrow shafting made. Easton tubing was used in establishing virtually all national and international tournament records and is steadily increasing in popularity as a hunting shaft. Because of constant uniformity in spine, weight and balance, potential accuracy is phenomenal, capable of 3-inch groups at 100 yards!

24SRT-X available in 17 sizes: 1416, 1516, 1518, 1616, 1618, 1716, 1718, 1816, 1818, 1820, 1916, 1918, 1920, 2016, 2018, 2020 and 2219

XX75 is available in above plus 1713, 1813, 1913, 2013, 2114, and 2213, Insert target points are available for all sizes: broadhead inserts for the following: 1816, 1818, 1820, 1916, 1918, 1920, 2016, 2018, 2020 and 2219

All tubes are tapered to receive standard nocks. When ordering, specify bow weight at draw length, draw length and whether target point or broadhead adapter is desired.

- XX75 - Cut to length, points installed \$27.00 dz.
- XX75 - Full length (31"), points separate 25.80 dz.
- 24SRT-X - Cut to length, points installed 22.00 dz.
- 24SRT-X - Full length (31"), points separate 20.80 dz.
- Insert Target Points 3.80 dz.
- Broadhead Adapter Inserts 2.40 dz.

MICRO-FLITE GLASS SHAFTS

by LAMINEX, INC.

MICRO-FLITE has become the by-word in glass shafting; recognized everywhere as the ultimate in fiberglass arrows. Precision construction insures extreme accuracy and durability. MICRO-FLITE shafts are always straight and completely weather resistant.

Tubes are parallel, light yellow in color and are available in a complete range of sizes to fit all bow weights for either hunting or target shooting.

Specify bow weight at draw length, draw length and whether target point or broadhead adapter is desired.

- MICRO-FLITE Cut to length, target points andnock inserts installed \$19.00 dz.
- For Broadhead Adapter Insert, add40 dz.
- MICRO-FLITE Full length (31"), shafts only 13.00
- Nock Inserts (Magnesium) 1.60 dz.
- Insert Target Points (case hardened steel) 2.00 dz.
- Broadhead Adapter Inserts (Magnesium) 2.40 dz.
- Point Fast Adhesive for inserts, 2 oz. kit 1.25 ea.

BOW FISHING EQUIPMENT

FISH POINTS

815 -- Spring barb point, screw on type. Parallel hole. \$1.00 ea.

816 -- Al's Fish Slick with retractable barb 5/16" & 21/64" I.D. Parallel hole \$1.75 ea.

817 -- Sting-a-ree, Parallel hole \$2.20 ea.

818 -- Double Barbed Harpoon, Parallel hole . \$1.50 ea.

FISHING BOOKLET

Complete information about tackle and helpful hints \$.10 ea.

BOW REEL

BOW REEL -- Stationary spool type with bracket for taping to bow; 50 feet of 80 lb. test line \$3.50 ea.
 NYLON LINE -- 50 ft. of 80 lb. test \$.95 ea.

ARROW MATERIALS

PORT ORFORD CEDAR

Matched spine and weight. 5/16", 11/32" \$4.00 dz.
 Matched spine \$3.00 dz.
 Unmatched \$12.50 c \$1.75 dz.

PLASTIC NOCKS

830 - SPEED NOCKS - indexed, 1/4", 9/32", 5/16", 11/32" . . . Red, white, blue, black, green, yellow \$20.00 M \$2.50 C \$.45 dz.
 831 - MID-NOX - 3/16", 7/32", 1/4", 9/32", 5/16", Colors according to availability \$1.00 dz. (e)

SYNTHETIC VANES

840 -- PLASTIFLETCH -- Red, white, green, black, orange, yellow. Add \$1.00c for fluorescent orange or green.

P15 -- 1 5/8" \$2.50c
 P22 -- 2 1/8" \$3.00c
 P25 -- 2 5/8" \$3.50c
 P26 -- 2 5/8" parabolic \$3.50c
 P32 -- 3 1/8" parabolic \$4.00c
 P40 -- 4" \$4.50c

841 -- LAYFLETCH -- 3 vane rubber fletching . . . \$.30 each (d) . . . \$3.00 dz. (d)

TURKEY FEATHERS

Choicest No. 1 quality, waterproofed. Attractively packaged.

835 - NATURAL BARRED \$4.50 C \$.70 dz.
 836-BARRED DYED - Red, yellow, orange, blue, green, black \$5.50 C \$.80 dz.
 837 - NATURAL WHITE \$7.50 C \$1.00 dz.
 838 - WHITE DYED - same colors as 836 plus fluorescent pink \$8.25 C \$1.10 dz.

ARROW NUMBER DECALS

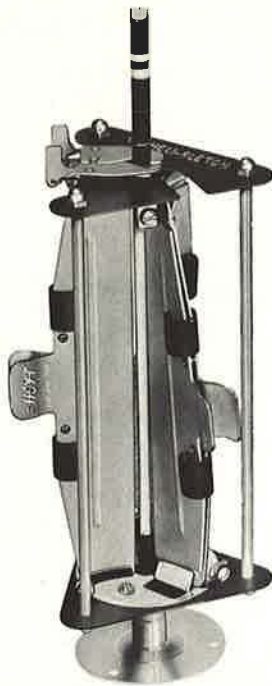

850 - ARROCALLS - Decals in black and gold, 1 to 12 \$.15 set

HEADSHRINKER

Aluminum bushing for adapting 11/32" ferrule points to shafts 5/16" dia. or less. Extends shaft length ½" \$7.50C \$1.00 dz.

FISH ARROWS

FC-700 - Port Oxford cedar. Add cost of fish point selected \$.60 ea.
 FG-700 -- Solid Fibreglas. Layfletched. Add cost of fish point selected \$1.60 ea.
 FA-700 - Heavy aluminum tubing. Add cost of fish point selected . . . \$1.75 ea.

ARROW MAKING TOOLS

TRI-HELI-FLETCH

THE PRECISION 3 FEATHER FLETCHER FOR FAST, EASY FLETCHING OF STRAIGHT AND HELICAL VANES.

FAST— the TRI-HELI-FLETCH is speedy to operate because of automatic centering devices and smooth operating clamps. Fletches 3 vanes at once or 4 vanes (60° x 120°) and 6 vanes in two-stage operation.

EASY — the TRI-HELI-FLETCH is so easy to use because of its functional design and its versatility in adjusting to straight or right or left helical fletching.

ULTRA PRECISION — perfection of design and precision tooling makes the TRI-HELI-FLETCH a masterpiece of fletching accuracy.

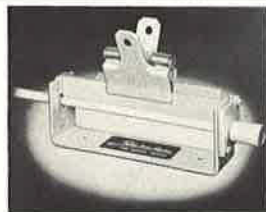

THE TRI-HELI-FLETCH is first choice of both the manufacturer and the home-crafter. First, it is less costly because it is equivalent to 3 single feather units. Second, less space is required because 2/3 fewer units are needed. Third, high production rate due to precise and automatic centering devices. Fourth, all steel construction for durability.

Complete with one set of clamps. Clamps are available in Right Spiral, Left Spiral or Straight. State choice \$14.95
Extra clamps, per set 2.95

*PATENT NO. 2,835,208

THE ROHDE JUNIOR

A precision, single feather fletcher for straight or right or left diagonal fletching \$6.95
Four feather indexer, 90° 1.00

EASTERN FEATHER TRIMMER

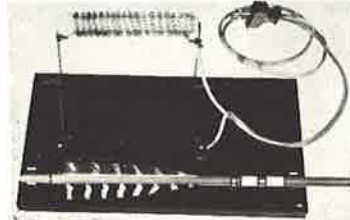

A high quality, easy to use, burner with resistor coil and extra ribbons ... \$5.50
Extra "V" nichrome ribbons, set of 3 \$.30

FLEETWOOD

Inexpensive all metal 3 feather fletcher.
750 — Fletches up to 3" \$1.50
752 — Fletches up to 5 1/2" \$3.00

FLEETWOOD BURNER KIT

All necessary parts and instructions for assembly. \$2.75
Extra nichrome wire, \$.10

LEE-FREE SPINE TESTER

The finest on the market. Accurate to .005". Easily read, adjustable dial face with spine chart imprinted. Spines on 24" or 26" centers. Instructions for use \$24.50 (d)

EASTERN CRESTER

The only two speed, fast or slow, crester made for better, easier striping. Chuck fits all nock sizes; loaded and unloaded without stopping heavy duty motor \$19.95

METAL ARROW STRAIGHTENER

GROVES ARROW STRAIGHTENER -- Sturdy "U" beam with moveable "V" blocks for greater flexibility in straightening metal arrows. Accurate dial indicator \$22.95 (e)
In kit form, assembles in 20 minutes . \$16.95 (e)

BROADHEAD SHARPENERS

MILL FILE -- 6" for putting a keen edge on broadheads \$.75 (g)

KEEN-KILL -- A two in one tool. Double cutters of tool steel put a serrated edge on your broadheads. "V" jaw for extracting embedded broadheads \$1.49 (e)

ARROW SCALE

PELOUZE ARROW SCALE -- For weighing arrow shafts accurately. Quick reading balance scale. Full set of tested weights. \$12.95 (e)

BLACKHAWK TAPERING TOOL

Combination nock taper (11°) and field or broadhead taper (5°). Four interchangeable bushings: 1/4", 9/32", 5/16" and 11/32". Schick razor blades deliver easy, perfect taper. \$3.50

KAMO

CAMOUFLAGE CLOTHING

For greater bow hunting success blend with your surroundings. Don't fight nature, join it.

KAMO 2 PIECE SUIT -- Heavy, 5 color twill. Jackets are full cut, trousers have large cargo pockets. Sizes: S,M,L \$12.95
XL 13.95
XXL 14.95

KAMO HAT -- "Jones Style", sizes 6 7/8" to 7 5/8" \$2.50

KAMO HEAD NET -- Conceals face, eyes and neck. Perfect insect protection. \$1.25

KAMO PARKA -- 5 Color netting 3/4 length w/parka hood and face veil. Camouflages any clothing worn beneath, winter or summer. S-M-L-XL \$6.50

KAMO BOW COVER - Water repellent, elasticized 5 color cloth. Easy on or off. Sizes S & L \$1.50

KAMO STICK -- Tan and green shades for face, hands or bow. Contains insect repellent \$.50

"NEET" ACCESSORIES

PEG REST -- Felt covered metal peg. Leather pad with peel-back adhesive \$.50

FEATHER REST -- Non-interfering, ideal for plastic vanes. Self adhesive. \$.50

BOW-SLING --- Deluxe: heavy duty, adjustable straps, double snaps. Fits all bows. Quickly installed with self adhesive \$2.25

BOW-SLING -- Standard: Same as Deluxe but lighter weight leather and single snap \$1.25

BOW SADDLE -- Soft, pliable glove leather. Easily applied to bow handle without cement \$1.00

ARROW HOLDER -- Silent, instant release. Holds all arrow sizes. Self adhesive for easy installation \$2.00

PENCIL PAC -- Convenient pencil holder with pencil. Self sticking, easily applied to bow or other surfaces \$.50

STRING KEEPER -- Molded plastic on self sticking leather pad. Holds string neatly in place \$.50

NOCKING POINT -- Special nylon tape, easily installed. Eliminates wear on serving. 3 for \$2.25

STRING SILENCER -- Dampens string noise with four self adhering leather pads plus fluffy feather for wind indicator \$.50

FINGER PROTECTOR -- Single finger glove. Ideal for use with a tab to protect that sore finger. Adjustable wrist strap. Sizes S-M-L. \$1.25

MISCELLANEOUS ARCHERY SUPPLIES

ROBIN HOOD TACKLE BOX

Attractive, fabric covered inside and out. Snap locks and metal corners. Holds 24 arrows, spacious accessory compartment. State overall arrow length. Inside length: 29" \$18.75 (e)
35" 25.00 (e)

GROUND QUIVERS

701 - Demountable, with bow rack . . . \$2.50
700 - One piece, arrow holder only . . . \$1.00

MARBLE'S WRIST COMPASS

187L -- A necessity for all woodsmen. Waterproof, luminous dial. Fits handily to wrist or bow \$3.50

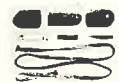

MARBLE'S WATER PROOF MATCH BOX

An essential part of every hunters gear \$1.95

SNAKE BITE KIT

Famous Cutter pocket kit may save your life. Consists of 3 suction cups, knife blade, tourniquet, antiseptic and instructions \$2.49

BUCK LURE

INDIAN BUCK LURE by Peter Richards. A glandular compound that attracts deer, kills human scent. Directions and hunting tips \$2.00

POWDER DISPENSER

POWDER POUCH -- Keeps powder dry and handy. Pencil pocket. Slips on belt \$1.25

BOW CARE

The "Medicine Oil" for all archery tackle. Cleans and protects bow finish, leather goods, and arrows. Pressure can \$1.50

WEEMS GAME CALLS

ALL CALL -- A proven call for foxes, wolves, bobcats, hawks, owls, etc. Interchangeable voices. Cotton Tail, Jack Rabbit, Squeaker, Coon. Call (with 3 voices) \$5.00
CHATTERBOX SQUIREL CALL -- Produces a perfect imitation of a squirrel's bark \$1.00
INSTRUCTION RECORD -- 45 rpm double face recording of authentic game calls \$2.00

SPORT SEATS

Compact folding seat, holds 300 lbs. Ideal for camping and hunting. \$2.50
PORT-A-SEAT -- Light, durable, compact. Folds flat . . . 22 1/2" high. \$3.95

FAYS SMOKE-CLIP

Stainless steel belt clip. Holds cigarette safely and conveniently \$1.00

SCORE RECORDERS

BO-TALLY -- Compact 3 digital counter for easy score computing \$1.50
PERMA-CARD -- Handy field score card tapes to back of bow. Can be used over and over again \$1.35

ARROW CLIPS

Ideal for tackle boxes and display racks. Clip and screw, 24 to a package \$1.09

ARCHER'S HAT

Attractively made of wool felt in most colors with matching feather. Fits anyone \$2.50

ADHESIVES

ROBIN HOOD FHW CEMENT -- For feathers and nocks. Strong bond to aluminum. 1 oz. tube \$1.45

EASTON 24SRT-X CEMENT -- A strong cement for all arrow needs. 1 3/4 oz. tube. \$1.50

EVER FAST CEMENT -- For feathers and nocks. 1 3/4 oz. tube \$1.25

FLETCH-TITE -- Fletching cement of high bond strength .50

FERR-L-TITE -- Super arrowhead cement for wood, metal or glass shafts. Stick \$1.35

FERR-L-TITE -- As above but in liquid form. Handy, plastic bottle \$1.60

GOO -- A strong, all-purpose rubber base cement. 1 oz. tube. \$1.60

DRI-TITE -- For waterproofing arrow fletching and dry flies. Does not stiffen feathers. (12 in display box) each \$1.50

MISSILE SLING -- At last a correctly designed sling shot that will provide hours of fun plinking and small game hunting. Capable of extreme accuracy, produces magnum hitting power. Packaged in box with 50 pellets \$3.00

MISSILE SLING HUNTER -- Hardwood stock with narrower forks than above. An inexpensive but high performing sling shot of outstanding value \$1.50

REPLACEMENT RUBBERS -- Includes leather pad. Medium or heavy pull \$1.00

PELLETS -- Steel balls. State size desired: 7/16", approx. 96 per lb; 3/8", approx. 128 per lb. \$1.75 lb. (d). . . . 5 lb. \$3.25 (d)

ROTO-FLITE BOOMERANG -- Have fun with this ancient instrument that has a perfected air foil for exhilarating flight. 4 blades, easy to throw. \$1.50

ARCHERY BOOKS

ARCHERY CHAMPIONS -- Authoritative record of top scores in International, N.A.A. and N.F.A.A. competition from 1930 to 1960 \$5.00 (e)

N.F.A.A. HANDBOOK -- Official tournament rules, field course layout, shooting instructions, etc. \$2.00 (e)

N.A.A. TOURNAMENT RULES -- Official tournament rules and rounds, including F.I.T.A., used in competitive target archery \$1.25 (e)

HOW TO IMPROVE YOUR ARCHERY -- Basic techniques for target and field archery. Authoritative and well illustrated. \$1.50

A WORKABLE ARCHERY PROGRAM FOR CAMPS -- Fundamental of shooting and a modified layout for a junior target range and field course \$1.30

ARCHERY TRAINING -- For camps, schools and beginners. Student manual for shooting, nomenclature, etc. \$1.10

BOW FISHING -- Complete information about tackle and how to get exciting action \$1.10

Specially designed precision equipment is used in this modern plant to produce the world famous Hoyt Pro bows.

Careful hand craftsmanship by experts insures the perfection and ultimate refinement necessary to achieve the highest possible standards of quality for which the Hoyt Pros are known.

Final results are scientifically checked on this ultra precision electronic chronograph. Here also experimental bows are carefully evaluated and development of the worlds foremost line of bows is achieved.

Choice of Champions

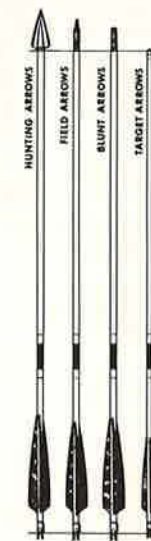

THE INCOMPARABLE SELECTION OF HOYT BOWS

From beginner to tournament champion, and the most skillful bowhunter . . . the new Hoyt Bow Line has a quality bow just right for you! Ask your dealer to show you the trend-setting Pro Medalist -- first and only bow in archery that brings out your highest degree of shooting accuracy. See the complete line of Hoyt Bows -- test the one bow that's just right for you -- and you'll discover why Hoyt Bows are the choice of champions everywhere!

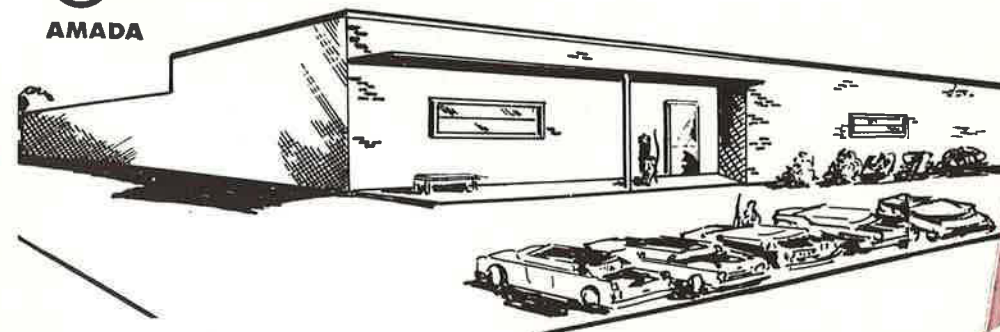

GENERAL ORDERING INFORMATION

- All prices are F.O.B. Bridgeton, Mo. or source or supply.
- Please include sufficient postage 3% of total order, excess postage will be credited or returned.
- Open Account on approved credit references only; please allow 3 weeks for processing. Cash orders save C.O.D. charges. 25% deposit required with all C.O.D. orders.
- Prices and specifications are subject to change without notice.
- Be sure to specify when left-handed equipment or articles are desired.
- When ordering bow be sure to state bow weight, bow length, draw length, right or left handed.
- When ordering arrows state bow weight and arrow length -- see illustration. When arrow length differs from draw length (distance to back of bow) state draw length also to insure proper spine selection. Broadhead arrows should extend approximately 1" beyond back of bow in order to clear forefinger of bow hand. Most expert hunters prefer their practice field arrows the same length as their broadhead arrows.

ARROW LENGTHS

HOYT ARCHERY CO. ◊ 11510 NATURAL BRIDGE ◊ BRIDGETON, MO. 63044

The important
FIRSTS

in archery achievement are by

The Hoyt line of bows have become the foremost in the world. They have earned a reputation of dependability and a standard of consistently high performance that is unmatched. In the performance category, the HOYT PROS have been the first choice of the experts in world, national and regional championships . . . compiling an enviable record of wins down through the years. Also, reliability has made the Pro Bows a preferred must of the bow hunter.

Substantiating the choice of the experts for the Hoyt line is the following impressive list of firsts that have become milestones in archery history and that have established HOYT as the leader in bow design and development:

- 1947 -- Pioneered the use of plastics in bow production.
 - 1947 -- Developed the first step toward dynamic balance, equal length bow limbs . . . now in almost universal use.
 - 1948 -- Introduction of the first overdraw and semi pistol grip.
 - 1951 -- The deflex-reflex principal of design incorporated in bow production -- first radical departure from orthodox design and now used in nearly all top line bows.
 - 1953 -- Production of the first truly short hunting bows . . . only 52".
 - 1956 -- Dynamically balanced bow limbs, (Pat. No. 2,995,130) introduced a new dimension in accuracy.
 - 1956 -- The true Pistol Grip, (Pat. No. 2,995,130) was first introduced on the Pro Olympion and now has become the most popular distinctive conformation of the modern bow.
 - 1957 -- Hoyt craftsmen offered the first exquisitely customized bows . . . checkering and inlays.
 - 1959 -- Incorporation of the Thumb Rest that has improved the "feel" of the bow grip.
 - 1961 -- Torque Stabilizers (pat. pend.) are a break-through in bow technology of the first magnitude. Due to the increased stability and resultant accuracy, the effectiveness of Torque Stabilization has been adequately proven on the tournament fields of National and International competition.
 - 1964 -- Micro-Rest (pat. pend.), the newest exclusive Hoyt development, is an adjustable arrow rest that permits dialing the exact degree of center shot best suited to your technique.
- FUTURAMA -- Just as Hoyt leadership in design has prevailed in the past, so will this same leadership prevail in the future.
