

After years of experience developing the best management practices for landscape growth regulation, SePRO has developed the Certified Landscape Applicator Program. To become eligible professional landscape management companies are invited to participate in a simple education and equipment support program.

Benefits of becoming a SePRO Certified Landscape Applicator:

- 1. Product and technology training by a SePRO Technical Specialist – depending on location, CEUs may be available.**
- 2. Continuing access to SePRO's landscape growth regulation technical expertise.**
- 3. Ability to advertise to your customers that your business is recognized as a SePRO Certified Landscape Applicator.**
- 4. Financial support towards the purchase of a Cutless Granular Application System by Vortex™.**

Enrollment Criteria

It's a simple 4-step process to become a SePRO Certified Landscape Applicator.

Step 1: Purchase ≥2000 lbs of Cutless 0.33G.

Step 2: Purchase a Cutless Granular Application System by Vortex™ through SePRO. Cost: \$1,000

Step 3: Participate in the SePRO Certified Landscape Applicator Training Program. Value: \$1,900

Step 4: Receive additional rebate of \$500 for each additional 2000 lbs of Cutless 0.33G purchased, up to \$1,000, after completion of Step 3.
