2"	3.3 PSI	100 GPM		

Sewer Connection Date: _____ Meter Install Date: _____
Meter Location: _____ Remote reader location: _____

This permit is issued subject to the following conditions:

The lateral must be inspected and subject to leak detection by the Fish Creek Sanitary District or Approved Authority prior to backfilling.

After the inspection of the sewer lateral is complete, it is the sole responsibility of the customer to maintain the sewer lateral from the building to the public sewer main connection. All cost to be paid by customer!!

The lateral must pass the inspection and leak detection before this installation will be accepted by the Fish Creek Sanitary District
All laterals must be installed in accordance with Wisconsin Administrative code (Safety and Professional Services).

No rain water, sump pump or downspout drainage should run into the sewer system.

The installer may not use the lateral for trench dewatering.

The installer must repair all damage to the public right of way.

The installer must ensure that there is no obstruction of flow in the lateral.

The installer must provide informational sketches/drawings showing lateral, cleanout and manhole locations and measurements.

Construction of the lateral may not commence until the permit and connection fees are paid.

The water meter must be installed before occupancy permit is issued.

Note: When installing water meter plumb outside hose bibbs before the water meter!!

The customer will provide suitable installation sites and a licensed plumber to install the water meter and remote read out , both of which will be provided by Fish Creek Sanitary District as part of the the connection fee paid. Thereafter if the meter fails or damaged it will be the responsibility of the customer to pay for the replacement!

Note: TID Area District will pay Permit, Connection fees and the cost of a water meter if needed!

The customer will provide access to the meter and read out for inspection after installation, for periodic readings to determine utility billings, and for occasional maintenance.

Occupancy of premises cannot occur until all of the following conditions have been completed.

We have read and agree to comply with the conditions of this permit.
