

THE JUPITER CONJUNCTIONS

However the *Creation Calendar* does coincide with the sighting of the *Sliver of the Moon* on the 21st of September. It is from that sunset at 6:37 PM that the 2-day count is calculated and timed. Coincidentally, it ends precisely on the eve or sunset of the 23rd of September at 6:34 PM that has the *Virgo Sign* dovetail it subsequently. Other astronomical occurrences to be considered is that the *Fall Equinox* occurs on the 22nd of September at 11:01 PM local time in Jerusalem. This time-marker is in approximate *phi ratio* of time from the beginning of the *Creation Calendar* Feast of Trumpets to the sunset and *Virgo Sign* on the 23rd of September at sunset. Another unique astronomical observation has to do with the Moon itself. From the time the Moon enters the constellation of *Virgo* in the 'head' region just a few hours before sunset on the 19th of September, to the time it leaves the 'feet' region of *Virgo* is approximately 5 days. This time, when converted to hours is 120 hours. Thus it will be at the 120th hours when the *Creation Calendar* Feast of Trumpets ends and the *Great Sign of Virgo* begins.

Most would agree that the main interpretation of the *Virgo Sign* is a foreshadowing and warning to Israel as it is based on the interpretation of the *Exodus* pattern. It is Israel that flees to the desert, not the Church. Israel 'fled' during the *Exodus* journey and was projected as she will be for the 2nd-half of the Tribulation, or the 'Time of Jacob's Trouble'.

The 'birthing' of Jupiter in Virgo is approximate *phi ratio* to comet 67p and the position of the Sun on Sep 9, 2017.

This 120 numerical coefficient has perhaps prophetic implication as well as it echoes the *120th Jubilee* since Genesis by some calculations. The other astronomical observation has to do with how the Jews will see the *Sliver of the Moon* on the 21st of September.

Conjunctions

September 9, 2017

Mercury and Regulus

As it has been mentioned, the first sighting of the *Sliver of the Moon* will occur at sunrise just over the *Mount of Olives*. Thereafter at sunset that same day, the *Virgo* constellation will be setting in the west overlooking the *Temple Mount*. What will be rather amazing is that as the Moon sets, the *Silver Sliver of the Moon* will be seen at approximately

The *Exodus* prophetic pattern involves the Pharaoh, a type of the coming AntiChrist that will seek to pursue Israel into the desert. Like the prophetic pattern, the *Red Sea* was a 'sign' and a deliverance for Israel. As it was the case that the same event that led to Israel's deliverance will be used to destroy the Enemy as the Egyptians all drowned in the case of the *Exodus*.

SLIVER OF MOON

Over Mt. of Olives-East

ROSH HASHSANAH - CREATION

Feast of Trumpets— Begins
CREATION CALENDAR
Sunset—Jerusalem
Sep 21, 2017—Thursday
6:37 PM

What will be spectacular during this Moonset is that this Yom Teruah *New Moon* will be dead-center in the 'Womb of Virgo'. Not only that but having the Sun set will reveal also the planet Jupiter that has been 'birthed' 11 days out from the 9th of September. What is significant about this date of the astronomical 'birthing' of Jupiter is that it coincides with the planetary conjunction of Mercury with Regulus in *Leo*. Also at the setting of *Virgo* towards her feet will be the 'Jubilee Comet', 67p. This comet was last present during the *6-Day War* that saw Jerusalem liberated from the Muslims 50 years from 2017. This prophetic restitution for 'Jacob' or Israel in 1967 had not occurred since 70 AD. Coincidentally the year 5778 will see the 70th year anniversary of Israel being 'born' as a nation, exactly 1948 years from 70 AD. As the *Virgo Sign* approaches and many are trying to 'figure it out', it still will remain somewhat of a mystery especially when considering the Rapture phraseology associated with it. Most would agree that it prophetically signals the mid-Tribulation
