

**JIM DOYLE,
Regional Sales
Manager**

Jim has been with the Henry M Wood Company for 15 years and has spent 36 years in industrial sales in Central and NE Ohio, metropolitan Cleveland, Columbus, and Marietta.

His areas of expertise lie in the product lines of FasTest, Ross Controls, and Autoquip, and in addressing In-Plant ergonomics and safety, pneumatic systems, bulk-material handling systems and level controls.

Jim has helped design custom leak testing products for Worthington Cylinders, Swagelok, and 2nd and 3rd tier suppliers to Honda, Ford, Chrysler, and Toyota.

Several special projects that Jim has been a part of have won industry awards including "The President's Award" in ergonomics from Honda of America. Jim has assisted in the development of custom lifts and work platforms for US Steel, Emerson Electric, AkzoNobel, Drury Plaza, Whirlpool, and Lockheed Martin.
