**WATTLE SEED**

*Acacia victoriae*

**Properties:**

Wattleseed is wild harvested, roasted whole and ground. Contains three microelements important for genome health: magnesium (Mg), zinc (Zn) and calcium (Ca), as well as rich sources of iron (Fe) a high protein level, approx, 17%, carbohydrate 41%, fibre 29%, fat 3%. (Brand & Cherikoff 1985) and a low GI average 1480+270 KJ /100gms (Brand & Maggire 1992)

**Applications:**

Most of today's uses are based around making a roasted hazel nutty flavor from the seed. By roasting the raw wattle seed until it pops, similar to popcorn. This new unique flavor has many uses, coffee-like beverages (caffeine free), essences, beer, baking, confectionery, dairy and marinades. Over the past few years even the pod/husk of Wattleseed (*Acacia victoriae*) have been researched for their medical properties in the fight against cancer.

**HIGH OLEIC MAC-OIL**

*Macadamia Integrifolia*

**Properties:**

The flavor of **Pure 100% High Oleic MAC-OIL (macadamia oil)** is **clean, intense and rich. Macadamia oil has one of the highest levels of mono-unsaturated fats of any tree nut oil and contains no cholesterol.** It is arguably one of the most versatile oils available for food service applications yet remains little known due more to the popularity and abundance of other vegetable oils. Macadamia oil contains High Oleic Acid, and a high concentration of Palmitoleic Acid, Linoleic Acid and Linolenic Acid. It also contains Omega-6 and Omega-3.

**Applications:**

Refined "High Oleic MAC-OIL (macadamia oil)" is a popular ingredient in cosmetics where the natural anti-oxidant qualities of the oil and high levels of High Oleic Acid and Palmitoleic Acid make it ideal for application to the Skin Care and Hair Care.
