

SYL-ALL PRODUCT LINE

SYL-ALL^{eva} Water Soluble | 250 g

The 4 enzyme, 4 bacteria Sil-All formulation in a water soluble product for an even, efficacious application.

SYL-ALL^{eva} Water Soluble 10X | 250 g

The Sil-All Water Soluble product with 10 times the concentration of bacteria, so it can be applied using low volume applicators.

SYL-ALL^{eva} Dry Applied | 25 Kg | 20 Kg

A granular version of Sil-All for dry application.

LALLEMAND QUALITY CONTROL STANDARDS

Lallemand Animal Nutrition is a primary manufacturer of forage inoculants. Our stringent quality control programs, validated to international standards, assure that the product you buy conforms to the formulation developed and proven to drive the fermentation of your forage with a quality product.

Our quality control program helps:

- Control variables that can kill inoculants, including heat, moisture and oxygen
- Achieve greater shelf life stability
- Guarantee rapid activation of all ingredients and product viability
