Accepts .DXF & .SVG Design Files

## Materials & MAX Thickness

### On Demand Manufacturing in Your Workshop

WAZER is the first desktop waterjet that can cut any material with digital precision. Now you have the ability to create custom parts on demand without outsourcing. WAZER is simple to use and easy to set up. Just hook up to standard electric and water supply. Industrial-size waterjets can cost up to \$100K, but WAZER's compact pricing starts at \$7999. If you design it, WAZER can cut it!
