

One Kiss

One kiss.
Just infatuation.
One kiss
Total fascination.
One kiss.
I'm in heaven.
One kiss.
And, I'm in love

There can be magic in the kiss if there's love in the heart.
It's this and only this that I miss.
I guess that I must have forgotten
Just what falling in love is.

It creeps upon you when you're feeling lonely.
You don't want to risk it.
But, it keeps insisting.
It puts a bounce in your stride and twinkle in your eye.
You keep thinking, "if it"
But, you can't resist it.

One kiss.
Not a word is spoken.
One kiss
Eyelids are smoking.
One kiss.
The spell is broken.
One kiss.
And, I'm in love

There can be magic in the kiss if there's love in the heart.
It's this and only this that I miss.
I guess that I must have forgotten
Just what falling in love is.
