

The Summer Solstice happens every year between June 20<sup>th</sup> and June 22<sup>nd</sup> when the sun reaches its highest elevation in the Northern Hemisphere making it the longest day of the year, with a stretch of sunlight that lasts 17 hours.

Summer is the season of ripening and abundance. It is the time of year when solar rays are most directly focused on the planet. In spite of the relentless sun, summer is a time of playfulness and leisure. Not matter where we live, summer brings a certain kind of freedom from care that is unlike any other time of year.

Life seems to have less struggle when we are in our summer season. We tend to be faithful to our truest self. The desire to become more healed and whole grows stronger in us. We feel productive and fulfilled as we recognize how we are contributing to the betterment of the world. May your summer be extra bright with the Son-light of God's love and grace before you!

**June 12—Be Impeccable with Your Words**

Learn the power of words and the impact they have on ourselves and others.  
Our words can be a blessing or a curse.

So, how do we discern what, when and how to express ourselves?  
We will investigate ways to speak our truth with love and compassion.

**June 26—Don't Take Anything Personally**

Taking other's words and actions personally gives us a false self-perception and belief in ourselves. This can cause deep suffering. How can we avoid falling into the trap of basing our self worth on other's opinions of us, especially those who love us and are closest to us.
