

**Scheffer Andrew Ltd.**  
*Planners & Engineers*

### Senior Civil Design Technologist

Scheffer Andrew Ltd. is currently seeking a motivated and driven individual to join our team as a Senior Civil Engineering Design Technologist. The role is ideal for growing your design and drafting experience with land development, transportation, planning, and engineering.

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for over 45 years. Our work focuses on municipal, land development and transportation engineering.

Duties of this position will include:

- Managing projects from preliminary engineering to completion, applying your technical knowledge and experience.
- Assistance with the design of land development projects that are assigned, including coordination with sub-consultants and City approval authorities as required.
- Preparing engineering design drawings and design reports. Attention to drafting accuracy and quality control.
- Delivering projects within established timeframes and budgets.
- Planning, organizing, and designing to best serve the needs of our clients.
- Computer Assisted Design and Drafting duties, using AutoCAD and Civil 3D.
- Coordination with Clients as it falls within your scope of work, to ensure the Client's needs are fulfilled.

The ideal candidate will have:

- **10 to 15 years of experience in land development.**
- **A Civil Engineering Technology diploma or equivalent** from a recognized college.
- **Registered with APEGA or ASET as PL (Eng), CET, or P. Tech.**
- Proficient knowledge using Civil 3D for plan production, site grading & calculating earthwork volumes.
- Knowledge in municipal, water resources, transportation, and land development engineering design, including design of municipal and related infrastructure including sewage, water, roads, storm water, and drainage.
- Familiarity with various Municipal and Provincial design and drafting standards- particularly those of City of Edmonton and surrounding municipalities.
- Working knowledge of Excel, word processing, Bluebeam and other design programs.
- Ability to prioritize multiple tasks and demonstrate a flexible approach to work assignments.
- Ability to work on your own and in a team setting with strong interpersonal and communication skills.
