

Too Much Airplane Noise?

In June, 2013 the FAA implemented new narrow flight RNAV paths using GPS – “Highways in the Sky”. Planes departing from runway 33L continue through 4 RNAV paths over same neighborhoods. On days with NW winds it results to hundreds of planes/day, every 2 minutes (or <) directly over your home. Visit our website: www.bostonwestfairskies.org

- Join our group **Boston West Fair Skies** (bostonwestfairskies@googlegroups.com)

- Complain to: **Massport Noise Complaint Line (617)-561-3333.**
- Come to our BWFS **meetings**. Stay informed. There are things you can do to help.

October Meeting in **Cambridge:**
Tuesday October 30th, 2018
 7:00 -8:30 P.M.
 Russell Youth Center
 680 Huron Avenue
 Cambridge, MA 02138

All are welcome!
