30

May: 7, 9, 14, 21, 23

Age Range at Start of Class

Prenatal-14months

Class Description

During this class we will provide a rich Montessori infant environment for the children to explore. Our goal is to provide education and support for parents of young children and to guide them in observation skills. Through these observation skills, parents will then be better equipped to understand and nurture their child's developmental needs. Spending this one on one time with your child is a great way to connect. This is also a great time for parents with the same parenting goals to get to know each other.

During one of the 90-minute session you will get to sit and observe your child in the Montessori environment. We will sing songs and have a community snack at the end of each session.

During the caregiver meetings parents will meet without children to talk about what they observed that week in class.

Open House

Come visit the space where the class will be held and ask us any questions you may have about the class. Your child will be free to explore the environment during this time.

Parent Orientation

This will be our first class meeting where parents will be instructed how the class will function and the parents will get to meet one another. We do ask that no children come to the parent orientation.

This class is open to all Montessori Academy families along with families outside of MA.

Cost

The 8 week session is \$360.

Registration

March 19th Deadline

Please email parentinfant@montessoriacad.org with name(s) of adults attending, as well and the name(s) and age(s) of your child(ren). You may attend our Open House prior to submitting registration/payment.

Email Us or Call Jessica White (865-805-6581) if you have any questions!
