If income under \$62,000 can file free online

If you worked at all, you may qualify for a refund of all or part of your withholding, the earned income credit, or other tax credits, depending on your circumstances. Many people who have not filed are entitled to refunds & if they do not file within three years of the due date of the return, they will lose that refund. If there is a refund coming there are no penalties. If there is a balance due, there will be penalties but IRS can either set up a payment plan or delay collection until you are able to make payments. Free income tax assistance is available for basic income tax returns. The IRS can provide copies of income information if you have lost or never received your Forms W-2 or other income information.
