**Maple Grove:**

Due to some confusion at the Board of Trustees, the Committee revisited the discussions from the September meeting regarding restoring public access to the beach. At the Sept meeting, the committee had voted to add two more engineering firms, in addition to LRE, to the process of soliciting a plan to restore beach access. At this point, three companies are being solicited for plan proposals: LRE, Edgewater Resources, and Merritt Midwest. Each of these companies has been asked to provide a plan that can be put out for bid to construct a pathway to the beach, and also used for grant applications.

The purchase of bathroom soap dispensers was tabled because the bathrooms will soon be winterized and closed.

The Committee is requesting funds to purchase 2 trash receptacles

An incident at the Maple Grove bathroom was discussed. The sink was pulled loose from the wall. We discussed repairing it, researching, and installing a security system.

Debbie and Paul reported that the lock to one of the bathrooms needs to be repaired because a key broke in the lockset.

Matt Super asked the committee to work from a vision and plan for parks and to come prepared to address that at each meeting.

The discussion included mowing and the wetlands. At the next meeting, the agenda will include plans for future plantings and maintenance.

Libby informed the committee that a branch along the path should be considered for removal. No action was taken.

Don Kuick requested that we consider making a baseball field at the 107th St Township property. A soccer field was also discussed. No decision was made as a soccer or ball field would require further discussion at a future meeting.

Adjournment at 8:30.

Minutes respectfully submitted,

Debbie Weaver
