ABOUT US

Innovation, quality and service are the foundation of The WellMark Company. Founded in 1981, WellMark has consistently grown its offerings through research and innovations such as the industry-transforming MIZER® No-Bleed Pilot Valve. WellMark has also grown via the strategic acquisition of other equipment manufacturers such as CEMCO/Major. Today, customers around the world trust WellMark for value, quality, durability and environmental compliance.

SALES & SERVICE

WellMark's engineering and customer service teams are personally available to serve you from our headquarters in Oklahoma City. And, WellMark products are available via a nationwide network of more than 25 talented sales representatives. Through these channels, we ensure you get the equipment you need fast, with low shipping costs.

Contact WellMark today for more information about products and services.
