Night Vision, Waterproof Front and Rear View Cameras

The CCD image sensor has better picture's clarity, color contrasting and sharpness than CMOS camera, with its 18 individual Infrared (IR) LED, it shows clear images in low light especially at night circumstances. This heavy duty CCD camera is hard metal cased, waterproof and mud proof, its IP rating up to IP69K totally meet the most strictly environments, all aspect meet military grade application. Also its electronic design have been in a long term testing and make sure it can last for longer without heating up, so you can show the rearview at all time.

8.0mm Video Extension Cables

Our premium cables provide the maximum quality of performance connection from the front and rear cameras to the monitor. The 8.0mm thickness of the cable gives an added level of durability to withstand adverse conditions such as sun damage and intense heat from the engine, or other heated areas of the vehicle.

WATERPROOF CAMERA

Light sensor	1/4 sharp CCD sensor
Video Output	Standard AV output audio, auto NTSC/PAL system
Resolution	420 TV Lines
Min. illumination	0.5Lux
View Angle	120 degree
S/N ratio	More than 48dB
Electron shutter	1/60-1/5000(s)
Supply voltage	DC9V ~ 15V
Storage Temp.	-20°C ~ +60°C, RH95%Max
Waterproof rating	IP69
Night Vision Distance	10m
Multi-function	Night Vision, waterproof, antifogging, shock resistance, mirror function

LCD PARAMETERS

Screen Size	7"
Picture display format	16:9 / 4:3
Resolution	800 X 3 (RGB) X 480
Contrast	500: 1
Dot pitch	0.118 (W) X 0.362 (H)
Brightness	300cd/m2
Power	≤2W
Current	700mA
Operation Temp.	-20 ~ +70°C
Storage Temp.	-30 ~ +85°C
Operating Power	Automatic PAL / NTST
Language display	8 Languages OSD menu: Chinese, English, German, Spanish, French, Russian, Japanese, and Portuguese
Size	179.3 X 134.3 X 68.8mm
