

## **SHAKE WELL BEFORE USING**

### **DIRECTIONS:**

#### **SURFACE PREPARATION:**

Forms to be coated should be clean, dry and must be free from oil and dirt.

#### **APPLICATION:**

Frontier Form Release Agent should be applied without diluting. Frontier Form Release Agent can be applied by brushing or low pressure spray tank. Liberal application and generous overlapping is recommended. Forms may be coated prior to setting the forms providing that the release agent does not interfere with the method of attachment of the forms (i.e. double-faced tapes or adhesives). The coating should be allowed to dry before concrete is placed.

#### **CAUTION:**

Contact with skin or eyes should be avoided by the use of proper protective equipment. Avoid inhaling. Keep out of the reach of children. Refer to the Material Safety Data Sheet for detailed information.

#### **COVERAGE:**

Approximately 150 square foot per gallon.
