* Torsion Spring & Limiter Bar

Shoe assembly comes with a torsion spring for more consistent down pressure. The solid limiter bar reduces residue entanglement and trash buildup

* 8 Point Adjustment Bracket

The 8 point angle/height adjustment allows you to set down pressure to the desired header height

* Made from abrasion resistant steel, this 10" wide shoe assembly is designed to protect your tire/tracks from stalks and other field debris. The Stalk Stryker™ has 8 points of angle/height adjustment to meet your field demands. The shoe assembly has a single pin mounting system for quick and easy removal and can be fitted with a poly liner for extended wear.
